Art Unit: 1732

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-13, drawn to an apparatus for making a building block, classified in class 425, subclass 352.
- II. Claims 14-20, drawn to a method of making a building block, classified in class 264, subclass 109+.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method can be performed using a materially different apparatus, such as a extrusion apparatus or a casting apparatus.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their

Application/Control Number: 10/815,533 Page 3

different classification, restriction for examination purposes as indicated is proper.

- 4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Lechert Jr. whose telephone number is 571-272-1203. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni can be reached on 571-272-1196. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
